AGENDA	
UPDATE IN NEUROMUSCULAR DISORDERS COURSE 2024	
Date	Tuesday 7 - Thursday 9 May 2024
Venue	Clinical Neuroscience Lecture Theatre, Basement, 33 Queen Square, London WC1N 3BG

DAY 1 TUESDAY 7th MAY		
THEME: Congenital myopathies		
09:30 - 10:00	Registration and coffee	
10:00 – 10.45	Novel congenital myopathies and congenital muscular dystrophies	Professor Francesco Muntoni
10:45 – 11:00	The Treatin Study: a natural history study to increase trial readiness in Titin-related congenital myopathies	Professor Giovanni Baranello and Dr Anna Sarcozy
11:00 - 11:30	Updated diagnostic approaches in congenital myopathies: where are we going?	Dr Anna Sarkozy
11:30 – 12:00	Break	
12:00 - 12:30	Arthrogryposis	Dr Adnan Manzur
12:30 - 13:00	Illustrative cases	Rebecca Finnegan, Safiyyah Asiri and Shira Rabinowicz
13:00-14:00 LUNCH		
THEME: Duchenne Muscular Dystrophy		
14:00 - 14:30	NorthStar trajectories in early ambulatory stages. Implications for interpreting novel therapy outcomes in DMD	Professor Giovanni Baranello
14:30 - 15:00	Current state of gene therapy development in DMD	Professor Francesco Muntoni
15:00 - 15:30	Panel discussion	Adnan Manzur, Giovanni Baranello, Mariacristina Scoto, Pinki Munot and Kate Addison. Moderated by Francesco Muntoni
15:30 - 16:00	Break	
THEME: Childhood Myasthenia		
16:00 - 16:30	Clinical aspects of Juvenile Myasthenia gravis in children	Dr Pinki Munot
16:30 - 17:00	Congenital myasthenic syndromes	Dr Sithara Ramdas
17:00 – 18:30	Drinks reception in the Lecture theatre foyer	

--	--	--

DAY 2 WEDNESDAY 8th MAY		
THEME: Spinal Muscular Atrophy		
09:00 – 09:40	Gene therapy in SMA: lessons learned from clinical trials and real-world' experience	Dr Mariacristina Scoto
09:40 – 10:10	Oro-bulbar function in SMA	Eleanor Conway
10:10 – 10:55	How to manage expectations and optimize motor outcomes in SMA1 children treated with novel therapies	Panel Discussion: Marion Main, Jennie Sheehan, Moderator: Giovanni Baranello
10:55 - 11:15	Break	
THEME: Respiratory management in Neuromuscular Diseases		
11:15 – 11:45	Secretion clearance management in neuromuscular disorders	Lisa Edel
11:45 – 12:30	Optimize respiratory management in DMD	Professor Anita Simonds
12:30 – 13:20	LUNCH	
THEME: Adult neuromuscular diseases		
13:20 – 14:00	Lessons from new genes in Charcot Marie Tooth disease (CMT)	Dr Chris Record
14:00 - 14:45	MND and diagnosis	Professor Andrea Malaspina
14:45 - 15:30	Emerging therapies for CMT	Professor Mary Reilly
15:30 - 16:00	Break	
16:00 - 16:30	Peripheral Nerve Vasculitis	Dr Aisling Carr
16:30 - 17:00	Metabolic Myopathies	Professor Ros Quinlivan

DAY 3 THURSDAY 9th MAY		
THEME: Adult neuromuscular diseases		
09:00 - 09:45	Channelopathies	Dr Dipa Jayaseelan
09:45 - 10:30	Clinical and genomic update in adult mitochondrial disease	Professor Mike Hanna
10:30 - 11:00	Update on Limb Girdle dystrophies	Dr Jasper Morrow
11:00 - 11:30	Break	
11:30 - 12:15	POEMS and other paraproteineamic neuropathies	Professor Mike Lunn
12:15 - 13:00	Update on diagnosis and treatment of TTR amyloidosis	Dr Alex Rossor
13:00 - 14:00	LUNCH	
THEME: Adult neuromuscular diseases		
14:00 - 14:45	Nodal / Paranodopathies	Dr Simon Rinaldi
14:45 - 15:15	Inflammatory Myopathies	Professor Pedro Machado
15:15 – 15:45	Pandemic infections and the PNS	Dr Hadi Manji
15:45 – 16:00	Closing comments	Professor Mary Reilly
